

Table Of Contents

Module 1: Installation & Initial Access	1-1
BIG-IP ASM Overview.....	1-1
Licensing and the Setup Utility.....	1-5
Provisioning.....	1-11
Installation and Setup Labs.....	1-13
Lab – Install and Setup Labs.....	1-14
Lab – Licensing System Lab.....	1-15
Lab – Setup Utility Lab.....	1-17
Lab – Configuration Utility Lab.....	1-20
Lab – Configuration Backup Lab.....	1-21
Lab – Provisioning Lab.....	1-22
Module 2: Web Application Concepts	2-1
Web Application Basics Overview.....	2-1
Web Page Components.....	2-4
HTTP Concepts.....	2-6
HTTP Request Components.....	2-7
HTTP Headers.....	2-11
Using Fiddler.....	2-14
Lab – Fiddler Lab.....	2-18
Module 3: Web Application Vulnerabilities	3-1
Web Application Vulnerabilities Overview.....	3-1
Risk Mitigation and ASM.....	3-10
Lab – HTTP Vulnerability Lab.....	3-12
Module 4: ASM Application Configuration	4-1
Configuration Components.....	4-1
Enabling ASM.....	4-4
HTTP Class.....	4-5
Virtual Servers.....	4-12
SSL Termination/Initiation.....	4-14
HTTP Request Flow.....	4-16
Lab – ASM Application Configuration Lab.....	4-17

Module 5: Security Policy Overview	5-1
Security Policy Properties	5-1
Policy Enforcer	5-3
Security Policy Configuration	5-4
Security Policy Components	5-8
Lab – Flow Access Lab.....	5-16
Lab – Attack Signatures Lab.....	5-28
Lab – Data Guard Lab.....	5-33
Anomaly Detection	5-35
Module 6: Traffic Learning	6-1
Learning Concepts.....	6-6
Violations	6-8
Reporting Concepts	6-17
Lab – Traffic Learning Lab.....	6-23
Lab – Requests Lab.....	6-25
Module 7: Parameters.....	7-1
Parameters	7-1
Parameter Types	7-2
Parameter Levels	7-12
Learning Parameters	7-20
Lab – Parameters Lab.....	7-21
Module 8: Security Policy Builder	8-1
Policy Builder.....	8-1
Wildcard Entities.....	8-8
Policy Building Methodology	8-10
Module 9: Security Policy Building Tools	9-1
Deployment Wizard Concepts	9-1
Lab – ASM Deployment Wizard Lab	9-9
Policy Wizard.....	9-15
Policy Building Using Manual Process	9-19
Lab – ASM Policy Wizard Lab	9-21
Module 10: Application-Ready Security Policy	10-1
Application-Ready Security Policy	10-1
Lab – Application-Ready Security Policy Lab	10-9

Module 11: XML and Web Services	11-1
XML Concepts	11-1
Web Services	11-2
Implementation of a Security Policy for Web Services	11-13
Lab – XML and Web Services Lab	11-14
Module 12: Protocol Security Manager	12-1
Protocol Security Manager Overview	12-1
Protocol Security Manager for FTP Traffic	12-2
Protocol Security Manager for SMTP Traffic	12-6
Protocol Security Manager for HTTP Traffic	12-9
Protocol Security Manager Statistics	12-14
Configuring Protocol Security Manager	12-17
Lab – Protocol Security Manager FTP Lab	12-18
Module 13: Logs and Logging Profiles	13-1
Log Files	13-1
Logging Profiles.....	13-5
Lab – Remote System Log Server Lab	13-13
Module 14: Administering ASM	14-1
User Management	14-1
Syncing Configurations.....	14-6
ASM qkview	14-6
Upgrading to v10.....	14-8
Lab – Administration Labs	14-9
Module 15: Configuration Lab Project	15-1
Configuration Lab Project.....	15-1
Appendix A – Traffic Capturing using HTTPWatch	A-1
Appendix B – Regular Expressions	B-1
Appendix C – New Features from Release Notes	C-1
New Features for ASM v10	C-1
Installation of ASM v10.....	C-6
New Features for ASM v9.x	C-9
Appendix D – Writing Rules for User-defined Attack Signatures	D-1
Appendix E – Configuration Lab Project (Helpful Hints)	E-1
PowerPoint Slides Printout
